12. Shortly before the main car park, turn right down the bank, through the trees, across the footbridge into this car park.
13. Take the surfaced path on the right across the grass, round the backs of houses into Waterside.
14. Cross the footbridge over Barton Haven and take the path diagonally right into the Water's Edge car park.

**TERRAIN** Surfaced paths and pavements are followed to Point 4, more steeply up Western Drive, the route drops into the tunnel and up steps to a minor road to Point 6. The route descends a good field headland path to a dyke crossing by footbridge to another minor road, Dam Road. The route is level to Point 8 and another road slopes down to Point 9. These roads are quiet and are bordered by good grass verges. Far Ings Road is a little busier with a good grass verge on the right, though this borders a dyke. The remainder of the route is basically level on good paths. Between 12 and 13 a variety of paths can be followed. Surfaced paths, bisected by Waterside and the Bridge over the Haven, lead back to the car park.

**TIME** Allow 1½ hours – 1¾ hours at a leisurely pace..
