# WELCOME

A stunning Regency mansion set in 300 acres of picturesque parkland, Normanby Hall is the jewel of North Lincolnshire. With the region's first Go Ape, exciting new playground areas and exhibitions, there has never been a better time to visit. Whether you want a treetop adventure or a relaxing walk in beautiful gardens, enjoy the abundance of wildlife or a delicious bite to eat in our Stableyard Café, there is so much to enjoy all year round.

## HALL & GARDENS

### THE HALL

Built in 1825, Normanby Hall is a Regency mansion designed by Sir Robert Smirke. It was previously home to the Sheffield family, former Dukes of Buckingham. Elegant rooms with fine Regency, Victorian and Edwardian furniture reflect the Hall's long history.

### THE STABLES AND COACH HOUSE

Displays in the Coach House include the Normanby Park Fire Engine, operated by the Normanby Park Fire Brigade. It was at one time the main means of fire fighting on the estate. Inside the Stables is the impressive life size sculpture of a horse and rider and its former by celebrated artist Harold Gosney.

### THE VICTORIAN WALLED GARDEN

The Victorian walled garden is a treat for any garden lover. Restored in 1997 to its late Victorian splendour, the garden is a nostalgic journey to the heyday of kitchen gardening. Visit recreations of working areas in the potting shed, bothy and head gardener's office.

## TOURS

Tours of the Hall are scheduled regularly throughout the summer season. A number of tours and talks are available for group bookings. Please contact the Hall for more information.

## EXHIBITIONS

**2 March - 29 September 2019.** An extra special exhibition launches in March! Step **'BEHIND THE SCREENS'** in the Hall and get up close to some of the best costumes in film and television. Featuring costumes worn by Orlando Bloom in *Pirates of the Caribbean*, Johnny Depp in *Sleepy Hollow*, Helena Bonham Carter in *The King's Speech* and many more. See original pieces from the costume collection and learn how costume specialists get from ideas to realities.

**2 March until the house closes after Christmas. WILLIAM FOWLER** lived and worked in nearby Winterton during the Georgian and Regency periods. His clients included the Sheffield's at Normanby and the Winn family of Appleby Hall. This exhibition features a number of Fowler's architectural drawings for houses built in Lincolnshire.

**PERMANENT DISPLAYS.** Learn about Normanby's role during the First World War as an auxiliary hospital, and Second World War as an army base.

Another display on the first floor display tells the story of the Hall and the Sheffield family as well as displaying beautiful costumes connected to the Hall's colourful past.

## THE FARMING MUSEUM

Rural North Lincolnshire comes to life in displays such as the tenant farmer's kitchen and backyard and the saddler's and blacksmith's workshops. Old farm machinery and transport tell the story of how the land was worked between 1850 and 1950. Little farmers will love the under-five play area.
